PROJECTS

Project in CDAC :

Title : **Tours and Travel Management System**

Developed a travel management system that streamlines travel services by allowing Admin to manage Tour packages and Guides, while Tour Guides can create and update tour packages (events). Customers can explore available tours, make bookings, and view personalized itineraries.

- Designed the frontend with **React JS** to provide an interactive and user-friendly experience.
- Developed the backend using **Spring Boot**, and **MySQL** for robust data management and scalability.
- Utilized **Spring Security** and **JWT** to ensure secure authentication and authorization for all users.
